|-----------|---------------|
| Age       | 25            |
| Education | BSc Education |
| Location  | USA           |

## GOALS

She wants to use statistical samples about given population of various countries & their major cities to perform her research oriented queries. She wants to use websites data to analyse academic activities of different educational sectors instead of using other difficult ways.

## Exasperations

Freda may become frustrated if the website interface is not user-friendly or if the data is outdated and not well-organized.

## FAVORITE

Freda uses a MacBook regularly .She is friendly with many websites and easily accessible tools which is useful for her research program.
